

Late Summer Native Plant Sale

Sunday, August 25, 2019 from 11 am to 2 pm

Thousands of plants and over 50 species!

Grow native plants to help pollinators and other wildlife while bringing a natural beauty to your garden. Late summer is an excellent time to plant natives in your garden. All plants are grown in High Park. The sale supports our stewardship program that includes seed collecting, planting, invasive species removal and a winter speakers series.

CASH ONLY. \$5 for small plants and \$10 for larger ones. Parking is VERY limited at the Grenadier Restaurant. In order to have plants for everyone to enjoy, large orders will be available only after 1:00 from the remaining stock.

See our website for plant lists, photos, map to the sale site and other resources. Join us for our sale and other activities that let you give back to the park you love.

High Park Greenhouse (off Centre Road SE from the Grenadier Restaurant)
